What value does this sport provide to the Youth Olympic Games?

**Games-time:**
Building on the success of the Sports Lab in Nanjing, Speed Roller Sports reflects an exciting and dynamic common activity that is practiced by many young people worldwide. It is bringing a youth-focused event that has not been seen before in an official Olympic programme.

**Legacy:**
FIRS’ has committed to a programme of engagement to organise the best multi-discipline events in Buenos Aires such as World Championships, International Seminars, 2021 Roller Games (proposal) and to make a Roller Museum, as part of many other activities to maximise the legacy made possible by YOG inclusion.

FIRS has provided a very strong legacy in Nanjing from the inclusion as a showcase event in the Sports Lab of the Youth Olympic Games 2014.

**Youth:**
Roller Sports’ youth world is divided into two parts – the in-line supporters and the skateboarding supporters. There are millions of in-liners, particularly in Asia and South America, and most of them are young and love speed. Speed Roller is a combination of speed and safety with the inherent Olympic values such as loyalty, friendship, sacrifice, equality and endurance.

Inclusion in the YOG would bring these millions of Speed Roller fans and athletes closer into the Olympic Movement while providing a spectacular youth-focused event to the BA 2018 programme.
